CC0/mplexen/Pixabay Although some people use the terms interchangeably, they refer to specific types of window treatments. Traditional rooms feel warm and inviting. Hardware may refer to the brackets and supports that hold the window treatment in place or decorative pieces like finials at the end of curtain rods. Get to Know Your Windows Before you start shopping for window treatments, take a good look at the spot you want to dress. Trade blinds for drapes to add softness to the room, or swap heavy curtains for shades to lighten the space. At the same time, they provide privacy for you and your family and help you control the amount of light that enters your home. Outside mount refers to a window treatment attached to the wall surrounding the window. Top a shade with a printed valance or swag to give the window dimension.
